CORONER'S JURY HOLDS RENO FOR THE MURDER OF GEO. LEWIS

Visitors Testify that a Little Game Was in Progress at the Time

ALL IDENTIFY THE PRISONER

A coroner's jury composed of John N. O'Neil, H. L. Swickey, F. J. Kurjweit, W. H. Amos, Walter Urban and V. E. Reeves, held an inquest to inquire into the death of George Lewis, colored, who was killed by a gunshot wound early Sunday morning at his home near Railroad alley and Second street.

The hearing was held Monday evening at the rooms of Lawrence B. Frye and was conducted by Coroner Heffran.

Quite a number of witnesses were called, the first being Dr. Hunter, who held an autopsy on the remains and gave the reason for the man's death. Other witnesses were Ben Stevenson, Bessie Rope, Napham Mosebay, George Corey, Howard Holmes, Jackson Reeves, James Williams, J. Arthur Rideout and Charles Peters.

It developed at the hearing that the visitors at the Lewis home were taking part in a crap game as well as cards; that the door was open and that Reno entered, when he was met by Lewis, who said "white men were not wanted." Lewis pushed Reno outside the door and stepped out with him, when the shooting took place. All of the witnesses who had been visitors testified that Reno was the man who had entered the home, while some testified that he was the man who did the shooting. After hearing the evidence the jury returned the following verdict:

"That George Lewis came to his death September 9, in Charleroi from internal hemorrhages due to a bullet wound in the left breast. We find further that said bullet wound was inflicted by a revolver in the hands of Carmello Reno, and recommend that said Reno be held to await the action of the grand jury on the charge of murder of said George Lewis.

Reno was taken to jail today to await the action of the November grand jury. The funeral of Lewis will take place Wednesday afternoon, at 2 o'clock with interment in Charleroi cemetery.

MORE DONATIONS TO CHARLEROI RED CROSS

The Charleroi Chapter of the American Red Cross received a number of donations on Monday which will be organized. Mrs. Charles F. Thompson of Fifth street, contributed \$50, Mrs. Charles Tatum, \$5, Mrs. D. E. Sloan, \$5, and Mrs. A. W. Day, President of the "Five Hundred" Club on behalf of the members of that organization contributed \$66. All of these contributions were gratefully received and the money will be used for the purchase of materials which are needed from time to time. The contributions thus made show that the appeals made from time to time have not fallen upon deaf ears—that many of the people of Charleroi are willing and ready to respond to the demands which the Red Cross society will have to make from time to time in order to keep up the great work which has been undertaken. There is a place to put every contribution and with increased demands now being made the ladies in charge of the work hope the responses will be equally as liberal in the future.

FIRST SHIPMENT FOR RED CROSS

Charleroi Chapter Sends Two Large Packing Cases for Hospital Use

OTHERS ARE ON THE WAY

The Charleroi Chapter of the American Red Cross on Thursday last shipped two large packing cases filled with garments and hospital supplies, which it is hoped will ultimately reach the Red Cross hospitals in France. One of the boxes contained 120 face towels, 140 sheets, 144 pillow cases and 12 napkins. The other contained 312 hospital shirts, 124 white handkerchiefs, 36 suits of pajamas and 12 comfort kits. Another box is now being filled and will be shipped as soon as ready.

The contents of the above boxes shows that the ladies of the local Chapter of the Red Cross have been very busy, and have contributed quite a lot of garments for the benefit of the men who become patients in the hospitals abroad. Many women already donate a great deal of time to the work, but they have room for all the volunteers who care to offer. There are other avenues of activity besides sewing; knitting for instance, as well as contributing garments or other supplies, or money to the preparation of comfort kits for the benefit of the soldiers in camps at the various cantonments throughout the country. If there are any ladies of Charleroi who desire activity in Red Cross work it will be easy to secure, as there will be plenty for all.

STEAMER VOYAGER

MEETS WITH ACCIDENT

The steamer Voyager of the Pittsburgh Coal company fleet, met with an accident to one of her cylinder timbers last week, and at present is at the Ninth street shops, Pittsburgh, undergoing repairs. The crew was assigned to duty on other boats of the line.

WASHED COAL FOR COOKING PURPOSES SHIPPED BY RIVER

The steamer Active of the Pittsburgh Coal company, passed down the river on Sunday with three barges, each containing 10,000 bushels of washed slack, from the Fourth pool mines of the company. The barges were being towed to the harbor of the LaBelle Steel company at Steubenville, Ohio and were part of a consignment of 11 barges which will be delivered by the coal Co. to the LaBelle Steel. This crushed and washed coal is used for cooking purposes and is said to be superior in quality. All sulphur, dirt and other impurities are removed by the washing and it is used to produce a superior grade of coke which is used in making high grade steel.

GREATEST DRAMA EVER SEEN ON THE SCREEN

"The Barrier," a ten reel photoplay produced from the book by the same name, by Rex Beach, which comes to the Coyle Theatre. Thursday, September 13 is one of the strongest dramas that has ever been produced. The interest of the story becomes more graphic and human on the screen than on the stage. The picture is strong, vital and human, depicting the love of a white girl, who thinks she is a half breed Indian, for a blue-blooded Southerner. 74-11.

THIS BOY ENJOYS REGULAR ARMY LIFE

Gettysburg National Park, Sept. 6, 1917.—Editor Mail: Believing you would like to know something of army life and how a recruit enjoys the experience, I will give you a brief outline of our activities. In the place it is a very clean life and I would advise any one to join who can fill the requirements. We are called early every morning, being required to "stand" at reveille at 6 a. m. after which breakfast is served. Every man is required to take care of his own knife, fork and spoon, and no halfway measures are permitted when it comes to cleaning them. All of the men are detailed at intervals to wash the dishes and wait on the table. This detail is called kitchen police. Every twelve days our Company is on guard duty. Companies not on guard drill from 8:15 to 11:30 a. m., and from 2 to 4 p. m. At 7:30 every morning we have calisthenics, and this feature lasts for half an hour. It is strenuous work, but the boys enjoy just the same. Every Wednesday and Saturday afternoons we have athletics, for Uncle Sam believes in giving the boys some play as well as plenty of work. So, take a tip from a sixteen-year-old and enlist. Yours truly, Robert DeSellems, Co. C, 58th Infantry, Gettysburg, Pa.

GOING TO WAR

At the banquet given the twenty-two selected men in the Elks club rooms Thursday evening, one of the speakers said that we had failed heretofore to realize that we are now at war, but with the going of the young men selected by draft, we had awakened to a full realization of this portentous event. This is largely true.

Except for the movement of troops here and there over the country and the increased prices of foodstuffs, and certain other articles it has been hard for us to awaken to a realization that a state of war exists between the United States and a powerful foreign power.

However the going of the selected men puts a different phase on the situation. These young men are taken right out of the life of the community. No uniform, no trappings of war, none of the blare that sometimes attends the gathering of military societies—but a parting with a tinge of sadness as the relatives and friends realize that the boys were being summoned to prepare for war.

These boys had little if any military training or knowledge. Their tastes and inclinations had led them into other paths, and their outings and activities took a different form from that provided by the bearing of arms. The war comes along and changes the aspect of affairs, and the young men who had heretofore been satisfied with peaceful pursuits are suddenly summoned to prepare to be a warrior. It is when such summons comes from the government that people begin to appreciate the situation in its true light and finally come to the full knowledge that war is with us.

There will be other similar scenes to those of Thursday night, many times before this great conflict is ended, and with each recurring call the grief will be deeper and more poignant as greater number of civilians are taken into the armed forces of their government.

It is hard to realize that war is here, but the taking of the young men from civilian life will serve to bring that knowledge home with peculiar force to every family in this land of ours.

J. C. SUTHERLAND

being used by the Opposition to my Candidacy for renomination and reelection as Recorder of Deeds.

Is This Consistent?

The same faction which is opposing me for a third term has in other years supported men for a third term in public office—notably Thomas Hill for County Commissioner and James T. Heffran for Coroner—and this within the past two years.

Today Judge J. A. McIlvaine is a candidate for the fourth term on the bench. He has served thirty years and all of us hope he may serve ten more. Why? Because he has been an able and efficient Judge.

The same argument being used against me might well be used against Judge McIlvaine, so that the job could be passed around—for many lawyers would not be adverse to taking a place on the bench.

The argument that if such a policy is carried out only two or three men would have a chance to be judge in a century is a political consideration—not one advanced in the interests of the people.

Congressman Henry W. Temple is serving his third term in the National House of Representatives and will be sent back for his fourth term. Why? Because he can be of greater service to the district through his knowledge of national politics and his continued experience in that office than a new man. Rotation does not pay.

The late Hon. E. F. Acheson was elected seven terms even though the issue was raised each two years that the job ought to be passed around.

The arguments of the opposition that the third term is the issue in the contest for Recorder of Deeds was not raised by the people but is being used by my opponents for political considerations only.

Have they pointed out one single good reason, why I am not fit for this office or why my opponent should be nominated, which is based on good-faith, sound business, or for the public good? NOT ONE.

Mr. Voter, consider this situation. Is it any more important that the office of Judge or Congressman or Commissioner or Coroner should be three terms or more, than that the Recorder should be continued for the same period.

The office of Recorder is just as important as many others which have been filled for more than two terms.

This is a time when common sense, good politics and sound judgement should be exercised by the voters.

I only ask that the same tests, the same principles be applied to my candidacy as have been applied to others who have made good records in their offices and who are seeking to be retained there in order to be of further service to the public.

- ③ ATLANTIC HEAVY
- ④ ATLANTIC Polarine

THAT, and the fact that they are the product of the world's oldest and largest manufacturer of lubricating oils, are all you need to remember when you buy engine-oil.

No one oil could be exactly right under every driving-condition; but one of the Big-Four can be—and IS. Your garageman will advise you which is best for you.

Atlantic Polarine is the famous year-round oil that flows freely at all temperatures. Ask your garage for a free copy of the "Why" booklet, or write us direct for it.

The more you know about automobiles, the more certain you are to use one of the Big Four in your crank-case.

The Biggest and Most Amazing War Story Yet Published

GERARD IN GERMANY

Startling
Assertions by
Former
Ambassador
Gerard

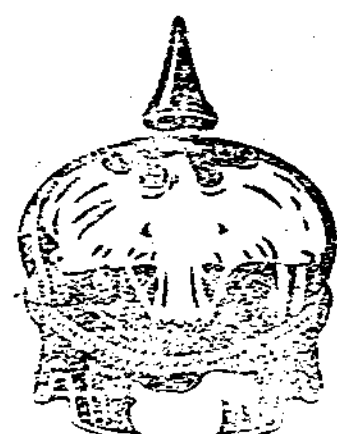

"I want to tell our people that the military and naval powers of the German Empire are unbroken."

"We are in the war because we were forced into it."

"The President offered to mediate, and the Kaiser replied to the President. It was the death warrant of millions of men. It settled the fate of Belgium."—(President Wilson has consented to the publication of this reply.)

"There is greater danger of starvation of our allies than of the Germans."

"If we had stayed out and the war had been drawn or won by Germany, we would have been attacked, and that while they stood grinning by."

THE NIGHT OF THE
PEN VS. THE NIGHT

What Critics Say About "The Honor System"

New York Tribune

New York American

New York Evening Journal

New York Evening Mail

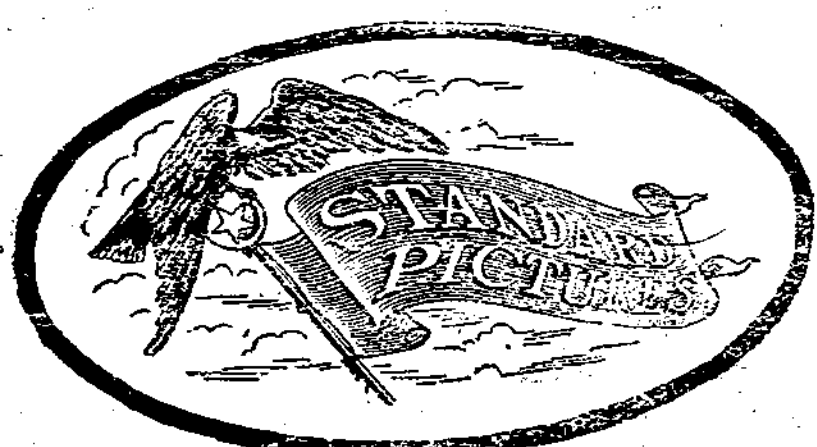

"Every one who sees it will send all his friends to see it, and by that time it will be time for him to see it again."

"The Birth of a Nation" at last eclipsed. Made new history in the film business. The most vital story ever put on the screen.

"If you don't sit in your chair, and hold tight, you are not human."
New York Evening Telegraph.
"The picture is deserving of universal attendance."

"The Honor System" has biggest theme of any screen production thus far. It will touch and move you—and set you thinking. It is an advance in story, marking the entrance of the photoplay into a big field of activity.
